SUPPLEMENTARY INFORMATION:

Background: The Secretary of Transportation (Secretary) is responsible for implementing regulations to issue safety permits for transporting certain HM in accordance with 49 U.S.C. 5101 et seq. The Hazardous Materials (HM) Safety Permit regulations (49 CFR part 385, Subpart E) require carriers to complete a “Combined Motor Carrier Identification Report and HM Permit Application” (Form MCS-150B). The HM Safety Permit regulations also require carriers to have a security program. As part of the HM Safety Permit regulations, carriers are required to develop and maintain route plans so that law enforcement officials can verify the correct location of the HM shipment. The FMCSA requires companies holding permits to develop a

communications plan that allows for the periodic tracking of the shipment. This information covers the record of communications that includes the time of the call and location of the shipment. The records may be kept by either the driver (e.g., recorded in the log book) or the company. These records must be kept, either physically or electronically, for at least six months at the company's principal place of business or be readily available to employees at the company's principal place of business.
